

UMER LAKAKHANY

FULL-STACK DEVELOPER

☎ +92 327 2298414 ✉ lakhanyumer@gmail.com

🌐 [Linkdin](#) 📁 [Portfolio](#) 🐙 [Github](#) 📍 Karachi, Pakistan

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience developing, deploying, and maintaining responsive web applications. Proficient in JavaScript, TypeScript, React.js, Next.js, Angular, Node.js, and Express.js, with experience in database integration, REST API development, authentication, and payment gateway integration. Skilled in troubleshooting application errors, resolving technical issues, and configuring website hosting and domains. Experienced in taking web projects from requirements through development and deployment, currently pursuing a Bachelor of Science in Computer Science while seeking an opportunity to contribute to a development team and expand full-stack engineering expertise.

WORK EXPERIENCE

Software Developer

Slynx Technologies | Remote

- Develop and maintain responsive web applications using React.js, Next.js, Angular, and modern JavaScript technologies.
- Build interactive frontend interfaces and implement application features using reusable components.
- Develop backend functionality and integrate REST APIs using Node.js and Express.js.
- Troubleshoot application errors, identify bugs, and implement solutions to improve functionality and reliability.

PROJECTS

Zeno eSIM - eSIM Web Platform

[Live Project](#)

- Contributed to a production eSIM platform across frontend, backend, and admin panel development.
- Built and integrated core application features and user workflows for eSIM management and platform operations.
- Developed admin-side functionality for managing platform data and application content.

Saudagran — Full-Stack Web Application

[Live Project](#)

- Developed full-stack features using React/Next.js, Node.js, Express.js, PostgreSQL, and Sequelize.
- Built and integrated REST APIs, database operations, authentication, and application workflows.
- Developed responsive frontend interfaces and connected them with backend services for end-to-end functionality.

Weekly Team Fun — Interactive Team Engagement Platform

[Live Project](#)

- Developed an interactive platform featuring team engagement activities and collaborative experiences.
- Built responsive user interfaces and interactive features to enhance team participation.

LIVIDOUA — Nonprofit Registration & Donation Platform

[Live Project](#)

- Developed a full-stack nonprofit platform featuring a multi-step registration system, online donations, and PayPal integration.
- Integrated Google Sheets for registration data management and implemented multilingual support to serve a diverse audience.
- Built interactive forms with digital signatures to streamline the participant registration process.

Janet Adenusi — Professional Author Website

[Live Project](#)

- Developed a responsive author website featuring book showcases, author information, and a professional portfolio.
- Integrated interactive UI components and optimized the website for seamless navigation across desktop and mobile devices.
