Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, MySQL, Firebase

Integrations: Payment APIs (PayPal), Google APIs (Google Sheets), Third-Party API Integration

Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Hosting and Domain Configuration, Debugging

Spoken Languages: Urdu (Fluent), English (Conversational)

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Web Developer

2024 – Present

Self-Employed | Remote

- Design, build, and deploy responsive websites and full-stack web applications for international clients, turning client ideas into live products.
- Develop frontend and backend features using React.js, Next.js, Angular, Node.js, Express.js, JavaScript, TypeScript, and Python.
- Integrate REST APIs, payment services, Google APIs, JWT authentication, and SQL/NoSQL databases into client applications.
- Debug application issues and resolve hosting, domain, deployment, and integration problems to bring projects live.
- Work directly with clients to clarify requirements, deliver solutions, and provide post-deployment support.
- Completed 38 orders on Fiverr since joining in 2025 and achieved Level 2 seller status while serving international clients.

SELECTED PROJECTS

Livido USA – Nonprofit Registration Platform

[Live Project](#)

- Built and deployed a registration platform with React.js and Vite, integrating the PayPal API for payments and the Google Sheets API for data handling.

Weekly Team Fun (WTF Lunch) – Group Lunch Deals App

[Live Project](#)

- Developed and deployed a mobile-friendly web app where teams find lunch deals, create groups, vote on venues, and redeem coupons.
